

Panther Fireplaces

- *LED Touch Screen**
- *Multiple Colour Flames**

- *Recessed or Wall Mount**
- *Energy Saving**

Why Choose Electric?

Electric fireplaces are an ideal alternative to gas or wood burning fireplaces. They are cost effective, easily moved, and safe as the glass will not get hot enough to cause burns. They are better for the environment; they do not emit any harmful emissions, and they use very little electricity. Electric fireplaces are easy to install and require little to no maintenance compared to traditional wood or gas versions. They fit new construction and remodel applications, and are an efficient source of heat. The various designs allow for creative freedom and make a statement in any room in the home/office/cabin or any location of your choosing.

ORTECH's Wall Mount fireplaces feature contemporary designs with various colors. The wall mount models have a heater and a fan and are illuminated with incandescent lights (unless specified). The heat vents from the bottom, and can operate with or without the heat option for year-round enjoyment. Variable heat and flame settings come standard, with controls on the fireplace, and a remote for convenient operation.

ORTECH's Flush Mount fireplace is a hybrid of insert and wall mount. It is recessed into the wall with on minor protrusion. It is illuminated with LEDs and comes with a heater and a fan. The heat vents from the front and it can operate with or without the heat option for year round enjoyment. Controls are included on the fireplace and a remote is included for convenient operation. Black Glass surrounds the unit and river rock and clear glass media is included.

ORTECH's Built-in Insert fireplaces have a heater and a fan and are illuminated with incandescent lights (unless specified). It has variable heat and flame, vents from the grille and it can operate with or without the heat option. Controls are easily accessible on the fireplace and a remote is included for convenient operation.

The Panther LED Electric Fireplace's versatile design options make it suitable for any style or room
